October 23, 2020

Dear Amory Athletic Patrons,

We have been in the process of getting our athletic contests available via livestream through MHSAA's sanctioned provider, PlayOn! Sports, since the beginning of school. Just like everything else, the demand for this service has backed up expected installation dates. I'm happy to report that we are now up and running at basketball and football. Cameras have been ordered for soccer, baseball, and softball. When those are available, we will make a statement confirming it. We urge people to buy subscriptions to this service as it financially supports our programs. A subscription will give you access to any events we livestream as well as any "away" events whose facilities have been set up for the service as well. Since the pandemic started, more and more schools have added this service. As part of our agreement with PlayOn! Sports, no one is allowed to broadcast our games via another provider. This includes personal recordings, broadcasts over social media such as Facebook Live, or any other broadcasting mechanism. With attendance restrictions as they are, this service is an avenue to view live contests and still support the Panthers and Lady Panthers.

Thank you for your support during this tough time.

Sincerely,

Ken Byars
Superintendent
Amory School District
